ST. PETERSBURG, May 26.-There have been many persistent rumors in the last few days to the effect that the

Russia is reported to be willing to se the island to the United States.

State Department officials profess to

State Department officials profess to know nothing about the report that the United States is negotiating for the purchase of the island of Sakhalla.

It is believed by some officials that the report was put in circulation deliberately by Russian agents with the purpose of encouraging enmity against the United States on the part of Japan, who would undoubtedly resent the action of the United States in acquiring this piece of territory.

The island is one of those which Japan regards of such value that in case of victory Japan will demand it from Russia.

Sakhalin is in the sea of Okhotsk off the east coast of Asia. It is separated from the mainland by the gulf of Tartary or Sakhalin and from the island of Yesso, of the Japanese group, by the strait of La Prouse.

The island is 514 miles in length and ranges from seventeen to seventy-eight miles across. The estimated area is 47,500 square miles.

It is mostly covered with low, forest-cavered mountains and has many small lakes. It is rich in lignitic coal.

The climate is severe. Its inhabitants, who number about 13,000, subsist mostly by fishing and fur hunting.

he was arrested under a bench warrant and brought into court to answer to an indictment charging him with conspiracy to fraudulently procure patents to Government lands.

In that indictment he was accused jointly with Frederick A. Hyde, Henry P. Diamond, and Joust H. Schneider for the alleged conspiracy to defraud the Government out of nearly a million acres of land in Oregon and California. Hyde and Diamond were arrested in California and were held in \$40,000 bond to answer the charge. Hyde and Diamond are fighting extradition.

When called to answer to the charges against him, Mr. Benson entered into \$15,000 bond to appear for trial. He was held under \$10,000 bond in the bribery case and \$5,000 bond in the conspiracy case. He will return to New York this afternoon,

With Bribery.

John A. Benson, the multi-millionaire land speculator of California, was in Criminal Court No. 1 today, to answer indictments charging him with conspiracy to fraudulently procure land patents and with bribery. He was released on \$15,000 bond.

Mr. Benson, one of the largest land speculators in the world, entered the courtroom with his attorney, R. Golden Donaldson. Glancing nonchalantly at Judge Wright, before whom he was to piead, he took his seat with a self-satisfied air which never left him during the proceedings.

He was brought here from New York when he gave bond in the sum of \$10,000 on Saturday lest for his appearance.

The mayor was in the most happy frame of mind this morning. He laughs this line of warfare to scorn and declares he has nothing to fear.
